

QLD Laser Assn Laser 'Buddy' 2019

Know someone thinking of getting into a Laser? Maybe you know someone who used to sail a Laser and wants to make a comeback? Then if they haven't got someone already giving them a hand to get on the water, there are now 'buddies' in Qld who have volunteered to help.

A buddy is a Laser-minded person to go to for general and initial advice on the how, where and who to go to when considering getting onboard a Laser. You could be a novice or maybe returning from an extended break to wash the dust off that old Laser hanging in the garage.

Many Laser sailors starting out probably had the benefit of at least some helpful person to get them on the water but if not so lucky, people from clubs in Qld have volunteered to be a buddy.

Anyone who might be considering taking up or returning to sailing Lasers are welcome to contact a buddy in their area to help to get things going for you. These buddies can be found in the table below.
